

LENX s.r.o. (CZ) = CNC Machining

LENX s.r.o. is a Czech limited company that has been active in the field of CNC machining since 2002. We mainly focus on custom finished products in small series or even single piece production of individual components or technological units. We supply customers in various fields such as mechanical engineering, packaging, food processing, automation, etc.

We provide:

- CNC milling, CNC turning & CNC EDM machining
- 2D/3D CAD construction of the machining parts and technological units
- CAD / CAM machining
- Machining of aluminium, stainless steel, plastic, steel, bronze, etc.
- 3D measuring
- Production and assembling of attachments and units
- Surface & heat finishing of machine elements
- Specialized industrial sewing machine repairs

CNC milling

HURCO VMX30i

(X 760 / Y 510 / Z 610 mm)

HURCO VMX30i

(X 760 / Y 510 / Z 610 mm)

HURCO VMX30i

(X 760 / Y 510 / Z 610 mm)

HURCO VMX30i

(X 760 / Y 510 / Z 610 mm)

HAAS VF-2SS

(X 762 / Y 406,4 / Z 508 mm)

HARTFORD PRO-800

(X 800 / Y 510 / Z 510 mm)

HARTFORD MVP8/AP-B

(X 860 / Y 530 / Z 510 mm)

HARTFORD MVP 16

(X 1600 / Y 820 / Z 700 mm)

CNC turning

HAAS DS30SSY

TAKISAWA EX 108

DOOSAN LYNX 2100

3D measuring

MITUTOYO M544

CNC EDM

HITACHI 254Y

Other equipment provided:

- Cutters
- Threading cutters
- Flat/round grinders
- Welding TIG/MIG
